

Cummins Warranty

All Engines Less Than 10L Worldwide
New Engine Parts

Coverage

Products Warranted

This Warranty applies to new Parts sold by Cummins when used on or with its Engines less than 10L which are purchased by the first user on or after October 1, 2018. It applies anywhere in the world where Cummins approved service is available through a Cummins distributor. Additionally, this warranty applies to starters and alternators sold for use on non-Cummins engines.

Coverage

This Warranty covers any failures of the Parts, under normal use and service, which result from defects in material or factory workmanship (Warrantable Failures). The Coverage duration is for one year, 100,000 miles (160,935 kilometers) or 3,600 hours of operation or specified maintenance interval, whichever occurs first, after the date of first installation.

This Warranty is made to all Owners in the chain of distribution and Coverage continues to all subsequent Owners until the end of the periods of Coverage.

Cummins Responsibilities

Cummins will pay for all parts and labor needed to repair the damage to the Engine resulting from the Warrantable Failure.

Cummins will pay for the lubricating oil, antifreeze, filter elements, belts, hoses and other maintenance items that are not reusable due to the Warrantable Failure.

Cummins will pay reasonable labor costs for Engine removal and reinstallation when necessary to repair a Warrantable Failure.

When the Parts are installed in a non-automotive Engine, Cummins will pay reasonable costs for mechanics to travel to and from the location of the Engine, including meals, mileage and lodging, when the repair is performed at the site of the failure.

Owner Responsibilities

At the time when the Parts are installed, Owner is responsible for the preparation of a written record containing the following: (1) the date of installation of the Parts; (2) the Engine serial number; (3) the Engine miles, hours or kilometers of operation; (4) the Parts installed; and (5) the location of the Parts in the Engine. The purpose of this record is to protect Owner's interests and support any claim for a Warrantable Failure.

Owner is responsible for the operation and maintenance of the Engine as specified in Cummins Operation and Maintenance Manuals. Owner is also responsible for providing proof that all recommended maintenance has been performed.

Before expiration of the applicable Warranty Term Limits, Owner must notify a Cummins distributor, Cummins authorized dealer or other Cummins Authorized Service

Provider, of any Warrantable Failure and make the Product available for troubleshooting and repair by such facility. Customer must also deliver the Product to the repair facility, as installed, for automotive and on-highway applications. Service locations are listed on the Cummins Worldwide Service Locator at cummins.com.

Owner is responsible for the cost of lubricating oil, antifreeze, filter elements and other maintenance items provided during Warranty repairs unless such items are not reusable due to a Warrantable Failure.

Owner is responsible for communication expenses, meals, lodging and similar costs incurred by Owner as a result of a Warrantable Failure.

Owner is responsible for non-Engine repairs and for "downtime" expenses, cargo damage, fines, all applicable taxes, all business costs and other losses resulting from a Warrantable Failure.

Limitations

Cummins is not responsible for failures or damage resulting from what Cummins determines to be abuse or neglect, including, but not limited to: operation without adequate coolant or lubricants; overfueling; overspeeding; lack of maintenance of lubricating, cooling or air intake systems; improper storage, starting, warm-up, run-in or shutdown practices; unauthorized modifications of the Engine. Cummins is also not responsible for failures caused by incorrect fuel or by water, dirt or other contaminants in the fuel.

Except for fuel pumps, Cummins does not warrant parts supplied by Cummins which bear the name of another company. This category of parts includes, but is not limited to: hydraulic pumps, alternators, starters, fans, air conditioning compressors, clutches, filters, power steering pumps, transmissions, torque converters, marine gears, air cleaners, non-Cummins air compressors and Engine compression brakes.

Before a claim for excessive oil consumption will be considered, Owner must submit adequate documentation to show that consumption exceeds Cummins published standards.

Parts used to repair a Warrantable Failure may be new Cummins parts, Cummins ReCon® parts or repaired parts. Cummins is not responsible for failures resulting from the use of parts not approved by Cummins.

A new Cummins or Cummins ReCon® part used to repair a Warrantable Failure assumes the identity of the part it replaced and is entitled to the remaining Coverage hereunder.

This Warranty does not apply to parts furnished by Cummins at no charge to the Owner.

Cummins Inc. reserves the right to interrogate Electronic Control Module (ECM) data for purposes of failure analysis.

CUMMINS DOES NOT COVER WEAR OR WEAROUT OF COVERED PARTS.

CUMMINS IS NOT RESPONSIBLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGE.

THIS WARRANTY IS THE SOLE WARRANTY MADE BY CUMMINS IN REGARD TO THESE PARTS. CUMMINS MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, OR OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

This Warranty gives you specific legal rights, and you may also have other rights which vary from state to state or from province to province.
